Please read these instructions thoroughly before use.

### Models Available

5V Single Board  
5V 5 Way Strip  
12V Single Board  
12V 5 Way Strip  
24V Single Board  
24V 5 Way Strip

### General description:

These handy relay boards are fitted with 5V, 12V or 24V relays. They are available in single boards or 5up strips with “snap-off” perforated PCB.

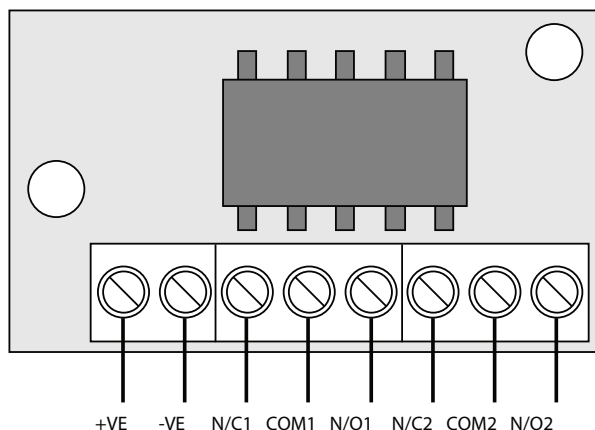

Each relay operates independantly and two sets of changeover contacts are provided.

An on board LED illuminates when each relay is activated.

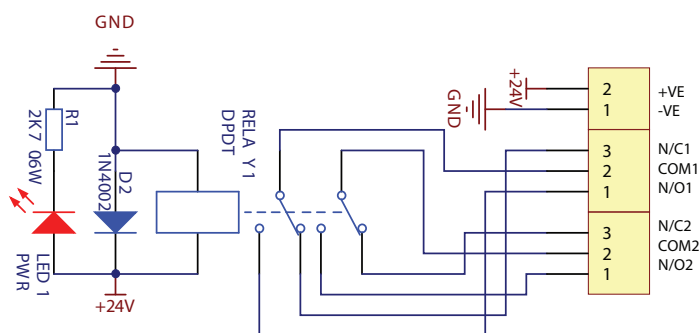

### Features:

- LED indicator
- “Snap off” perforated PCB
- Dual changeover contacts

Connections

## IMPORTANT NOTES:

- DO NOT EXCEED THE LOAD RATING OF THE RELAY BEING USED.
- CHECK WIRING CAREFULLY BEFORE OPERATING. ENSURE THE POLARITY OF ALL WIRES ARE AS MARKED ON THE PCB. FAILURE TO DO SO MAY CAUSE DAMAGE TO THE BOARD OR CONNECTED EQUIPMENT.
