

## TR3094 Z1 WiFi FPV Drone

### Quick Start Guide

1. Please ensure that the TR3094 Z1 WiFi FPV Drone is fully charged prior to operating.
2. Connect the USB charging cable to a suitable USB source (PC, Laptop, Power Bank or USB 240V Mains Power Charger). Charge time is around 30 minutes.
3. Install 4 x AA batteries into the remote controller.
4. Download the smartphone APP "GX UFO" from the APP store or Google Play. Alternatively, scan the QR code on the side of the box.
5. Once the Z1 WiFi Drone is fully charged, turn the switch to on position.
6. Turn the remote controller on. The controller will beep twice to confirm pairing process.
7. The smartphone will need to be paired via Wi-Fi to the Z1 WiFi Drone.
8. Go to the smartphone's Wi-Fi setting menu and search and select for the Z1 Wifi signal under ZCxxxxx.
9. Once connected to the Z1 WiFi Drone via Wi-Fi, open the GX UFO APP and press Play.
10. The video stream will be displayed on the smartphone.
11. Secure the Smartphone on the adjustable and folding bracket.
12. You may now proceed to fly the drone (indoors only or calm day without any wind outdoors).
